

# You **Tube**™ **How to...** **set up YouTube™** **Safety Mode™**

**YouTube Safety Mode enable parents to choose whether to limit content on YouTube™ that might be unsuitable for their children, even though it's not against YouTube's Community Guidelines.**

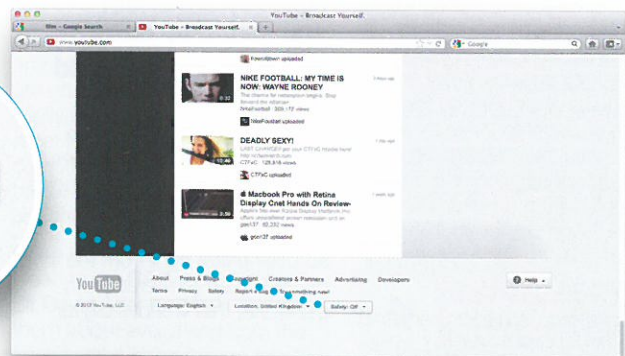

When you opt in to Safety Mode, videos with mature content or that have been age restricted will not show up in video search, related videos, playlists, shows and movies.

## Step 1

### Go to safety preferences

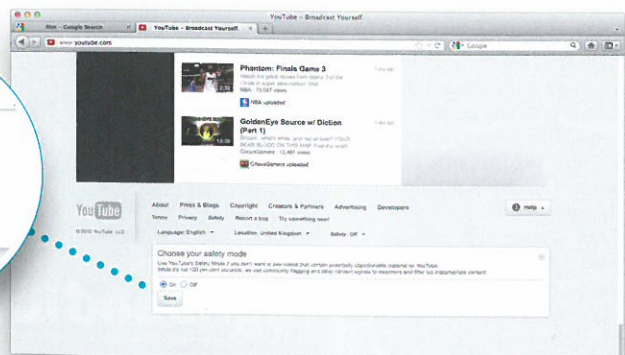

Simply go to the bottom of any page on YouTube™ and click the grey 'Safety' button to open the preference setting.

## Step 2

### Turn Safety Mode 'on' or 'off'

Choose to turn Safety Mode 'on' or 'off' and click on Save. If you turn it on and you have a YouTube™/Google account, you can sign in to your account and lock Safety Mode so that no-one else can change the settings whenever YouTube™ is accessed from that browser.

Please note: While no filter is 100% accurate, YouTube™ uses community flagging, hides objectionable comments and uses pornographic image detection to identify and hide inappropriate content. Safety Mode on YouTube™ does not remove content from the site but rather keeps it off the page for users who opt in.
