

As geographers we will use a range of tools, such as atlases and Google Earth, to locate Greece.

We will look at its key geographical features, cities (past and present), historical landmarks and climate.

In Science this term the children will be continuing to build on the work from last term on materials and their properties as well as working on their science skills.

Towards the end of the term they will begin SRE sessions.

Throughout all of our literacy sessions we will be using Greek myths.

We will look at the key features of myths, write our own based on Medusa and Perseus.

Groovy Greeks

Throughout Design and Technology we will design and hold our own Ancient Greek

banquet with traditional food. We will also design and create our own Greek style temple and see if it is able to withstand an earthquake.

As historians we will build on our knowledge of primary and secondary sources; looking at some excellent examples of artwork and sculpture on our trip to the British Museum.

We will investigate the lifestyles of the ancient Greeks; unearthing what impact they (and their empire) have had upon life today.

As artists we will use the primary sources that we learn about and view on our trip to the British Museum as inspiration to create our own pieces of Greek art. We will look at the way the Greeks told stories through their art and replicate some stories of our own that we would like to be remembered.

Greek Gods and some of their
